

# CoCamp Evaluation

**PLEASE RETURN TO UNITS 9/10, 83 CRAMPTON STREET, LONDON SE17 3BQ BY THE 30<sup>th</sup> SEPTEMBER 2011.**

This is a set of exercises and questions designed to be run at group nights. You could take a whole session on it, or just use the first exercises to get an overall opinion at the start of your group night if you don't have the time to do that. It would really help us out if you are able to complete at least section 1, so that we can get as broad a level of feedback as possible.

**District:** \_\_\_\_\_

**CoCamp Village / Town:** \_\_\_\_\_

## **Section 1 – how satisfied were you?**

For each of the questions in this section you can answer anywhere from '100% satisfied' to '0% satisfied'. Choose one end of the room to be complete satisfaction and the other to be not at all satisfied and ask everyone to stand at the place in the line between these two points that they feel best describes how they feel about each element.

Record the numbers standing in each section of the line, and also any particular comments that come out of the exercise to explain why they have chosen that place. Feel free to use more paper if you need it! (It would help if you can indicate age group and leaders / young people.

## **Section 2 – Co-operation and Co-operatives**

The theme of CoCamp was co-operation and co-operatives, we tried to run the camp as much like a co-op as possible and also to ensure the programme was around these themes.

Here are some discussion questions, there are a few different ways you can get your group to explore / record their answers.

1. Have a chat in a group and write down the key points.
2. Have a chat and then draw a picture that shows your answers.
3. Make a picture of your answer out of yourselves – like a tableaux. You can then go and interview each person 'who or what are you?' they are allowed to unfreeze to answer (possibly in the appropriate accent/silly voice) e.g. 'I am a bowl of washing up that everyone will finish together'. (If you do this version it would be great if you can jot down some notes to send to us afterwards).

What does co-operation mean to you?

What does co-operation look like?

What is a co-operative?

What does it mean if you are a member of a co-operative?

What was a co-operative thing you did at CoCamp?

It would also be useful to know of each of these –

Is your answer changed by something you did or learnt about at CoCamp?

## **Section 3 – Over to you**

What were the best things your group or you as an individual did at CoCamp?

Would you have liked there to be more of that kind of thing?

What were the things that could have been better or different?

How could they have been better or different?

How will your group or you as an individual be taking the spirit of CoCamp back to your local area?

Is there anything we could do to help support that?

Is there anything else you want to tell us as the board of CoCamp as we put together the final report? (The most useful feedback is the kind that gives a positive suggestion about how things could have been different, or that the organising committee for the next camp would be able to take on board in how they organise that.)
