

	To help members to...	a group might...
WOODCHIPS	Show care for nature	- Litter pick in a local park - Make bug hotels from sticks and wire
	Appreciate and learn about their local environment	- Make a 'journey stick' on a walk, collecting found objects from nature
ELFINS	Understand how to take care of the environment, locally and globally	- Make recycled paper from old newspapers
	Explore and experience the natural environment through practical activities	- Use Woodland Trust resources to identify trees in a nearby woodland - Do the RSPB's Big Garden Birdwatch
PIONEERS	Understand effects of pollution and climate change	- Run Greenhouse Theatre or The World in 2050 (ACC)
	Understand impact of personal choices and consumer behaviour	- Run the My Ecological Footprint exercise (AfP)
VENTURERS	Take action on climate change and environmental issues	- Lobby the local MP about climate change, or invite them to speak at a group night - Run the Train Line activity to think about how to mount an environmental campaign (ACC)
	Consider links between international development and climate change	- Run the Exploring Vulnerability session (IfV) - Run the Letters From the Past activity (ACC)
